

# shoelaces for ordinary shoes - round

Round shoelaces are suitable for regular shoes due to their durability and resistance to abrasion. When lacing, it keeps the lace stable and easy to tie. For this type of laces, we use the type of knitting - braiding for better strength of the lace. We offer polyester, (GRS certified recycled polyester), cotton, waxed shoelaces in a wide range of colours and any length. We use celluloid tape (different colours) or metal or brass to end of the shoelaces.
