

## straps

Straps can also be used in the production of shoes, as tabs in the back of shoes or for hemming shoes etc. Plain and patterned straps are also suitable for making of sandals. A strap with a woven reflective strip in the back of the shoe serves for increased safety at night. Special thin and stiff straps are used as shoe tabs through the laces are threaded. Bag straps and edgings are used in many colours and widths for the production of various types of packaging, bags and backpacks. We offer polyester, nylon and cotton straps. The possibility of printing on a stripe or we can also weave a text or a logo. It is possible to choose from a wide range of colours.
